

Stone Fruit from Heaven (a testimonial)

from Tami L., Chef, Madison WI

I'm sitting here in my drunken state of plum euphoria. If I were a smoker, I'd have to light one up.

Here are a few notes:

Inca plum

The shape of this plum says, "Look at me, I'm special!"

Aggressively perfumed, medium-firm silky texture, explosive flavor with a wonderful balance of acidity, tartness and sweetness. Extremely pleasant mouth-feel, thin skin.

Laroda plum

Beautiful rich aroma, juicy, soft texture, thicker skin, gorgeous yellow to blood red flesh, rich stewed flavor, slight sweetness, showing minimal tartness or acidity.

Padre plum

Firm texture, mouth-watering juicy-ness, wonderful level of tartness that continues to hum in your mouth after swallowing. My guess is that this would be a wonderful dessert plum.

Mariposa plum

Intense antique rose aroma, strong perfumed flavor, creamy, explosive juicy, melting mouth-feel, incredible color of a rich, deep wine. Almost overwhelming, intoxicating nose and flavor.

Baby Crawford peach

Chin dripping flavor, beautiful floral aroma, delicate flavor, silky mouth-feel.
