

<p>ARCTIC JAY July 25 - August 19 Harvest is concurrent with 'Heavenly White'. Slightly smaller than 'Heavenly White' with a sweeter, milder flavor.</p>
<p>ARCTIC QUEEN July 30 - August 5 'Arctic Queen' is a very sweet white nectarine harvested right after 'Arctic Rose' and 'Heavenly White'. Almost as sweet as 'Arctic Rose', but the fruit is often larger in size. The latest to be harvested of the long list of white nectarines that we grow.</p>
<p>COSTELLATION (BN-9) July 1 - 10 A selection from Burchell Nursery. Part of the 'Peppermint Series' of white nectarines. 'BN9' is a large white nectarine with deep maroon skin and many "sugar spots". A favorite fruit of writer, David Karp. High sugar with complementary acid. Excellent flavor and quality.</p>
<p>CRIMSON BELLE NECTARINE August 1 – 10 One of the excellent white nectarines developed by the Hybridizers' Group, CRFG. Large fruit with a deep crimson blush and cream-colored flesh. Excellent balance of sugar and acid. Melting, juicy, and richly flavored.</p>
<p>DIAMOND RAY July 30 - August 10 Clingstone nectarine from Burchell Nursery. Mid-season nectarine with very round full shape. Full red color, attractive glossy finish. Excellent size and firmness. Exceptional fruit quality.</p>
<p>FRECKLE FACE July 10 - 20 Named after Andy's red headed goddaughter, Julie. A yellow nectarine with blushed skin that is covered with many "sugar spots" or freckles which indicate high sugar content just below the fruits skin.</p>
<p>HONEY BLAZE July 1 - 10 Very sweet and rich nectarine flavor. One of the best early yellow nectarines.</p>
<p>HONEY KIST July 5 - 15 One of the earliest yellow nectarines to ripen and one of the sweetest regardless of season. High sugar content with a very rich nectarine flavor sets this variety apart from many other yellow nectarines that ripen later. Truly one of the finest flavored fruits we grow; many of our customers simply love its "candy-like" sweetness combined with a full-bodied nectarine flavor. The variety is a clingstone.</p>
<p>HONEY ROYAL July 20 - 30 Similar to 'Honey Kist' with a low-acid nectarine flavor. Very sweet, very large, highly blushed yellow nectarine, with an oblong shape.</p>
<p>LATE LE GRAND August 15 - 25 'Late Le Grand' nectarine is a late-maturing strain of the old 'Le Grand' nectarine, the first commercially grown nectarine in California. The "late" version may be of even better quality than the original. Its</p>

<p>clingstone flesh is juicy and luscious with a true, old-fashioned nectarine flavor.</p>
<p>LE GRAND August 10 - 15 The first modern nectarine considered the prototype for all other market nectarines. Developed by Fred Anderson, father of the California nectarine industry. The variety still has great flavor with rich nectarine taste.</p>
<p>LIZ'S LATE August 15 - 25 'Liz's Late' nectarine is a late season yellow nectarine with a rich, spicy flavor. Medium to large in size with a little blush and a strong slightly acidic flavor.</p>
<p>PANAMINT August 10 - 25 Medium-sized, attractive red-skinned yellow freestone. An old heirloom nectarine. Aromatic and intensely flavored. Very red around the pit. Excellent for dessert when tree-ripened.</p>
<p>PEGASUS (BN-6) July 5 - 15 A new exciting white nectarine from Burchell Nursery. It's part of the 'Peppermint Series' which combines a high sugar/high acid flavor profile. A favorite of the Santa Monica Farmers Market where it's known as 'BN-6', now called 'Pegasus'.</p>
<p>R1,T19 July 20 - August 05 'R1 T19' is a creation of the Hybridizers' Group of the local CRFG Chapter. It is a late white nectarine of extraordinary quality. Creamy white with speckled blush skin. Juicy, melting with great flavor balance.</p>
<p>RAPUNZEL July 5 - 15 This little yellow nectarine was developed by Burchell Nursery. Formerly called 'Snack Time', it is a yellow donut-type nectarine. Orange-gold with a deep blush skin. Very juicy, flavorful flesh. A favorite at the Santa Monica Farmers Market. Food critic Jeffrey Steingarten calls it "the best stone fruit he's ever ate".</p>
<p>RASPBERRY RED July 30 - August 10 Raspberry Red is a unique little nectarine with red flesh, deep burgundy skin and a luscious, complex flavor with sweetness, tartness and a depth of flavor. Juicy texture. A result of the fruit breeding work of the Hybridizers' Group of the local CRFG Chapter. Outstanding flavor profile.</p>
<p>RED DIAMOND July 15 - 25 This nectarine is said to be the standard in quality for mid-season yellow nectarines. It's beautifully blushed with a juicy texture, and the classic sweet/tart nectarine flavor.</p>
<p>ROSE DIAMOND July 1 - 15 Very early yellow nectarine with blushed and speckled skin. Small to medium in size. Excellent flavor for such an early nectarine. Developed by Bradford Farms.</p>

<p>RUBY DIAMOND July 20 - 28 One of the 'Diamond Series' developed by Bradford. Classic yellow nectarine flavor, ripening just after 'Red Diamond'.</p>
<p>RUBY SWEET July 30 - August 10 'Ruby Sweet' nectarine is an older variety developed by Bradford Genetics. It is a yellow clingstone with very sweet flavor, but also with some tang. Firm but juicy texture.</p>
<p>SAMARKAND GOLD July 25 – August 5 Lemon-shaped and almost pure yellow. A clingstone with extremely sweet, juicy flesh. A favorite of those "Sweet Teeth" who love sugary flavors. Excellent dried fruit. A creation of the Hybridizers' Group of the local CRFG Chapter.</p>
<p>SEAN'S POEM July 25 - August 5 Developed by the Hybridizers' Group and named for Sean Bogdanovich, a young naturalist and poet who lost his life in the wildness in 2011. The fruit is oval, medium to large in size with a complex flavor, both sugar and acidity. Juicy texture.</p>
<p>SILK ROAD July 30 - August 10 'Silk Road' is a strain of the 'Tashkent Gold' nectarine that was brought into the US from Uzbekistan. Like its cousin, 'Maria's Gold', the fruit is pure golden yellow with a distinctive flavor.</p>
<p>SNOW QUEEN July 10 - 20 When well grown and at its best, it is the best of the white-fleshed nectarine. Often with cracks and scars, but inside the flesh is tender, juicy, and succulent with the richest of nectarine flavors. Both very sweet and acidic, an excellent balance.</p>
<p>SPARKLING RED August 10 – 18 An Anderson release. Excellent late, yellow freestone nectarine.</p>
<p>SPECKLED EGG July 30 - August 10 'Speckled Egg' is a huge nectarine, yellow analog of 'Heavenly White' or 'August Snow' nectarines. Extensively speckled, with a luscious flavor and melting texture. Created by a Hybridizers' Group. CRFG.</p>
<p>SUMMER FLARE 28 (BN-7) July 20 – 30 Burchell introduction. Yellow clingstone nectarine. Excellent eating quality.</p>
<p>SUMMER FLARE 30 August 10 – 18 A Burchell release. Very high quality, firm, yellow clingstone.</p>
<p>SUMMER FLARE 32 August 20 – September 5 One of Burchell Nursery's 'Flare Series', classic nectarine flavor. A late season winter.</p>
<p>SUMMER SILK July 30 - August 10 'Summer Silk' nectarine is similar to 'Heavenly White' but matures later and can be larger than</p>

'Heavenly White'. Rich, luscious flavor is well-balanced. Result of breeding work by the Hybridizers' Group of the local CRFG Chapter.
